DETAILED ACTION

Allowable Subject Matter

Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance: Patentability has been found because the prior art fails to suggest or show the combination as set forth in the independent claims 1, 6, 11 & 16 including 'paying the player a match winning amount on the match wager if the index value of at least one of the initial two cards dealt to the player matches the index value of the face-up card;' This requirement is not seen or fairly suggested by the prior art of record.

The closest prior art of reference was Koeling (741). Koeling discloses a Method Of Playing blackjack With A Side Wager. Koeling teaches a Method of Playing Blackjack With A Side Wager.

Koeling teachings fail to anticipate or render obvious applicant's invention because the method applied to the resolution of the match wager based on the index value match is absent from his teachings.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

Conclusion

The prior art made of record and not relied are cited to show the state of art with respect to features of the claimed invention.
